AN ORDINANCE GOVERNING THE CONSTRUCTION, INSTALLATION, OPERATION, REPAIR, MAINTENANCE, REMOVAL AND RELOCATION OF FACILITIES AND EQUIPMENT USED FOR THE TRANSMISSION OF TELECOMMUNICATIONS OR RELATED SERVICES IN THE PUBLIC GROUNDS OF THE CITY OF HENDRUM

THE CITY COUNCIL OF THE CITY OF HENDRUM DOES HEREBY ORDAIN AS FOLLOWS:

SECTION 1. DEFINITIONS. The terms defined in this Section have the following meanings:

Company: A natural or corporate person, business association, political subdivision, public or private agency of any kind, its successors and assigns, who or which seeks or is required to construct, install, operate, repair, maintain, remove or relocate facilities in the City of Hendrum.

Facilities: Telecommunications equipment of any kind, including by not limited to audio, video, paging, facsimile or similar service, not governed by Minnesota Statutes, Chapter 238, including all trunks, lines, circuits, physical connections, switching equipment, wireless communication equipment of all kinds, and any necessary appurtenances owned, lease or operated by a company on, over, in under, across or along public ground.

Subd. 2. Application. Application for a permit is made to the Hendrum City Clerk.

Subd. 3. Issuance of Permit. If the city council determines that the applicant has satisfied the requirements of this ordinance the city clerk may issue a permit to the company. An applicant may contest a permit denial or the conditions of approval by written notice to

the city clerk requesting a city council review within fourteen (14) days of the action. The city council shall hear any contest of the actions under this ordinance within forty-five (45) days of the city clerk's receipt of the contest notice. Nothing in this ordinance precludes the city from requiring a franchise agreement with the applicant, as allowed by law, in addition to the issuance of a permit set forth herein.

Subd. 4. Permit Fee. The application must be accompanied by the permit fee set by the city council by resolution.

Subd. 5. Security for Completion of Work. Prior to commencement of work, the company must deposit with the city security in the form of certified check, letter of credit, or construction bond, in a sufficient amount as determined by the city council for the completion of the work. The securities will be held until the work is completed plus a period of three (3) months thereafter to guarantee that restoration work has been satisfactorily completed. Upon application of the company, providing such information as the city council may require, if two or more work projects are to be constructed during a calendar year, the city council may accept, in lieu of separate security for each project, a single security for multiple projects in such form and amount as determined, in the discretion of the city council, to be sufficient to assure completion of all projects which may be in progress at any time during that calendar year and to guarantee that restoration work will be satisfactorily completed. The security will then be returned to the company, with interest if required by law and then interest at the applicable statutory rate.

Subd. 6. Inspection of Work. When the work is completed the company must request an inspection by the city maintenance superintendent. The maintenance superintendent will determine if the work has been satisfactorily completed and provide the company and the city council with a written report of the inspection and final approval.

SECTION 3. RESTORATION AND RELOCATION.

Subd. 1. Restoration. Upon completion of the work, the company must restore the general area of the work, including paving and its foundation, to the same condition that existed prior to commencement of the work and must exercise reasonable care to maintain the same condition for two years thereafter. The work must be completed as promptly as weather permits. If the company does not promptly perform and complete the work, remove all dirt, rubbish, equipment and material, and restore the public ground to the same condition, the city may put it in the same condition at the expense of the company. The company must, upon demand, pay to the city the direct and indirect cost of the work done for or performed by the city, including but not limited to the city's administrative costs. To recover its costs, the city will first draw on the security posted by the company and then recover the balance of the costs incurred from the company

directly by written demand. This remedy is in addition to any other remedies available to the city.

Subd. 2. Company Initiated Relocation. The company must give the city written notice prior to a company initiated relocation of facilities. A company initiated relocation must be at the company's expense and be approved by the city, such approval not to be unreasonable withheld.

Subd. 3. City Required Relocation. The company must promptly and at its own expense, with due regard for seasonal working conditions, permanently relocated its facilities whenever the city requires such relocation.

Subd. 4. Relocation where public ground vacated. The vacation of public ground does not deprive the company of the right to operate and maintain its facilities in the city. If the vacation proceedings are initiated by the company, the company must pay the relocation costs. If the vacation proceedings are initiated by the city of other persons, the company must pay the relocation costs unless otherwise agreed to by the city, company and other persons.

SECTION 4. COMPANY DEFAULT.

Subd. 1. Notice. If the company is in default in the performance of the work authorized by the permit, including but not limited to restoration requirements, for more than thirty (30) days after receiving written notice from the city of the default, the city may terminate the rights of the company under the permit. The notice of default must be in writing and specify the provisions of the permit under which the default is claimed and state the grounds of the claim. The notice must be served on the company by personally delivering it to an officer thereof at its principal place of business in Minnesota or by certified mail to that address.

Subd. 2. City Action on Default. If the company is in default in the performance of the work authorized by the permit, the city may, after the above notice to the company and failure of the company to cure the default, take such action as may be reasonable necessary to abate the condition caused by the default. The company must reimburse the city for reasonable costs, including costs of collection and attorney fees incurred as a result of the company default. The security posted under Sec. 2, Subd. 5 will be applied by the city first toward payment for such reimbursement.

SECTION 5. INDEMNIFICATION.

Subd. 1. Scope. The company will indemnify, keep and hold the city, its elected officials, officers, employees, and agents free and harmless from any and all claims and actions on installation, maintenance, repair, removal, relocation or operation of the facilities

affecting public ground, unless such injury or damage is the result of the negligence of the city, its elected officials, employees, officers or agents. The city will notify the company of claims or action and provide a reasonable opportunity for the company to accept and undertake the defense.

Subd. 2. Claim Defense. If a claim or action is brought against the city under circumstances where indemnification applies, the company at its sole expense shall defend the city if written notice of the claim or action is given to the company within a period wherein the company is not prejudiced in the defense of such claim or action by lack of such notice. If the company undertakes the defense, the company shall have complete control of such claim or action, but it may not settle without the consent of the city, which shall not be unreasonable withheld. This section is not, as to third parties, a waiver of any defense or immunity otherwise available to the city. In defending any action on behalf of the city, the company is entitled to assert every defense or immunity that the city could assert in its own behalf.

SECTION 6. OTHER CONDITIONS OF USE.

Subd. 1. Use of Public Ground. Facilities must be located, constructed, installed, maintained or relocated so as not to endanger or unnecessarily interfere with the usual and customary traffic, travel, and use of public ground. The facilities are subject to additional conditions of the permit as established by the City Council including but not limited to:

- i. The right of inspection by the city at reasonable times and places;
- ii. The obligation to relocate the facilities pursuant to Sec. 3, Subd. 3 and 4;

Subd. 2. Location. The facilities must be placed in a location agreed to by the city. The company shall give the city forty-five (45) days advanced written notice of the company's proposed location of facilities within the public ground. No later than forty-five (45) days after the city's receipt of the company's written notice the city will notify the company in writing of the city's acceptance or rejection of the proposed location. If the city rejects the company's proposed location, the city shall propose alternative locations. The city does not waive or forget its right to reject the location of facilities by failure to respond within the 45 days.

Subd. 3. Emergency Work. A company may open and disturb the surface of public ground without a permit where an emergency exists requiring the immediate repair of its facilities. In such event the company must request a permit not later than the second working day thereafter and comply with the applicable conditions of the permit. In no

event, may the company undertake such an activity which will result in the closing of a street or alley without prior notification of the city.

Subd. 4. Street Improvements, Paving or Resurfacing. The city will give the company written notice of plans for street improvements where permanent paving or resurfacing is involved. The notice must contain

- i. The nature and character of the improvements;
- ii. The streets upon which the improvements are to be made;
- iii. The extent of the improvements, the time when the work will start; and
- iv. If more than one street is involved, the sequence in which the work is to proceed.

Subd. 5. Company Protection of Facilities. The company must take reasonable measures to prevent the facilities from causing damage to persons or property. The company must take reasonable measures to protect its facilities from damage that could be inflicted on the facilities by persons, property, or the elements. The company must take specific protective measures when the city performs work near the facilities.

Subd. 6. Prior Service Connections. In cases where the city is undertaking the paving or resurfacing of streets and the facilities are located under such street, the company may be required to install service connections prior to the paving or resurfacing, if it is apparent that service will be required during the five (5) year period following the paving or resurfacing.

SECTION 7. EFFECTIVE DATE AND APPLICABILITY TO EXISTING FACILITIES.

Companies with facilities, in, on, over, under or along public ground on the effective date of this ordinance must take prompt action to comply with this ordinance and the permits authorized by this ordinance. A company, however, is not required to reapply for a permit obtained from the city prior to the effective date of this ordinance. A company is not required to pay the difference between the permit fee of a previously obtained permit and the equivalent newly obtained permit under this ordinance. All other provisions of this ordinance apply to existing facilities.

SECTION 8. ACCEPTANCE OF REQUIREMENTS.

By receiving a permit pursuant to this ordinance, the company accepts and agrees to comply with all of the requirements of this ordinance.

SECTION 9. PUBLIC GROUND OTHER THAN RIGHT-OF-WAY.

Nothing in this ordinance is intended to grant to the company authority beyond that given by MN Statutes Sec. 222.37 for the use of the public right-of-ways for construction and operation of facilities. If the city allows the company to use its non-right-of-way public ground, the terms of this ordinance apply to the extent they are consistent with the contract, statutory and common law rights the city owns in such property.

SECTION 10. REGULATIONS; PERMIT SCHEDULES.

The City Council is authorized to prepare suitable regulations and schedules for administration of permits issued under this ordinance.

SECTION 11. SEVERABILITY. If any provision of the ordinance is contrary to law and therefore unenforceable, such provision will be severed and will not affect the other provisions of the ordinance.

A permit for construction and connection of the extension between a building drain and the sewer main or curb stop, herein called the building sewer, or for construction of a water main or stub, shall be issued only upon application by a person who has furnished a bond either to the City Clerk or to the Secretary of State under MN Stat. 326.40. Before any new connection to the city system is permitted, city employees shall ascertain that no cross connection will exist when the new connection is made.

Subd. 7. Restricted Hours. Whenever the City Council determines that a shortage of water supply threatens the city, it may, by resolution, limit the times and hours during which city water may be used for lawn/ garden sprinkling, irrigation, car washing, air conditioning, or other specified uses. When service to any premises has been discontinued, service shall not be restored except upon the payment of all delinquent bills, charges and fees. Such action is optional and may be subsequent to taking legal action to collect delinquent accounts.

If the customer requests a hearing, with fee, before the date specified, a hearing shall be held on the matter by at least two members of the City Council within one week of the date of the hearing request. If as a result of the hearing, it is found that the amount claimed to be owing is actually due and unpaid and that there is no legal reason why the water supply of the delinquent customer may not be shut off in accordance with this ordinance, the city may shut off the water supply and apply a

hearing fee of \$10.00. If the hearing results in a finding that disconnecting water supply is not justified, the hearing deposit shall be returned, and records corrected. In any event, the disconnect procedure shall not be used if there is a good faith dispute about the billing.

SECTION 5. Protection of Public and City

No use variances may be

1. Exceptional or extraordinary circumstances apply to the property which do not apply generally to other properties in the same zone or vicinity, and result from lot size or shape, topography, or other circumstances over which the owners of the property, since the effective date of this Ordinance, have had no control.
2. The literal interpretation of the provisions of this Ordinance would deprive the applicant of rights commonly enjoyed by other properties in the same district under the terms of this Ordinance.

4. The Economic Development Authority shall study the application and shall make a recommended decision to the Board of Adjustments and Appeals within sixty (60) days of the application, one of three actions- approval, denial, or conditional approval.
5. The Board of Adjustments and Appeals upon conducting the public hearing shall not make any decision until the Economic Development Authority has remitted its recommendation within the required period. The Board of Adjustments and Appeals shall make a decision with one of three actions- approval, denial, or conditional approval.
6. No re-application by a property owner for a variance shall be submitted to the Board of Adjustments and Appeals within a twelve (12) month period following denial of such request, except that the Board of Adjustments and Appeals may permit a new application if, in the opinion of the Board, new evidence or a change of circumstances warrant it.

SECTION 1.0 STATUTORY AUTHORIZATION, FINDINGS OF FACT AND PURPOSE

1.1 Statutory Authorization: The legislature of the State of Minnesota has, in Minnesota Statutes Chapter 103F and Chapter 462 delegated the responsibility to local government units to adopt regulations designed to minimize flood losses. Therefore, the City Council of Hendrum, Minnesota, does ordain as follows.

1.2 Purpose:

- 1.21 This ordinance regulates development in the flood hazard areas of Hendrum, Minnesota. These flood hazard areas are subject to periodic inundation, which may result in loss of life and property, health and safety hazards, disruption of commerce and governmental services, extraordinary public expenditures for flood protection and relief, and impairment of the tax base. It is the purpose of this ordinance to promote the public health, safety, and general welfare by minimizing these losses and disruptions.
- 1.22 National Flood Insurance Program Compliance. This ordinance is adopted to comply with the rules and regulations of the National Flood Insurance Program codified as 44 Code of Federal Regulations Parts 59 -78, as amended, so as to maintain the community's eligibility in the National Flood Insurance Program.
- 1.23 This ordinance is also intended to preserve the natural characteristics and functions of watercourses and floodplains in order to moderate flood and stormwater impacts, improve water quality, reduce soil erosion, protect aquatic and riparian habitat, provide recreational opportunities, provide aesthetic benefits and enhance community and economic development.

SECTION 2.0 GENERAL PROVISIONS

2.1 How to Use This Ordinance: This ordinance adopts the floodplain maps applicable to Hendrum and establishes the Floodplain District. As shown on these maps, this district comprises flood fringe areas, as defined in Section 2.921, within and adjacent to the City.

District is an overlay districts that is superimposed on all existing zoning districts. The standards imposed in the overlay district are in addition to any other requirements in this ordinance. In case of a conflict, the more restrictive standards will apply.

- 2.3 Incorporation of Maps by Reference:** The following maps together with all attached material are hereby adopted by reference and declared to be a part of the Official Zoning Map and this ordinance. The attached material includes the Flood Insurance Study for Norman County, Minnesota, and Incorporated Areas, dated September 30, 2015 and the Flood Insurance Rate Maps for Norman County and Incorporated Areas with map numbers 27107C0190E and 27107C0195E, all of these documents dated September 30, 2015 and prepared by the Federal Emergency Management Agency. These materials are on file in the City Clerk's office.
- 2.4 Regulatory Flood Protection Elevation:** The regulatory flood protection elevation (RFPE) is an elevation no lower than one foot above the elevation of the regional flood plus any increases in flood elevation caused by encroachments on the floodplain that result from designation of a floodway. Within the AO Zone, the RFPE is an elevation no lower than 3 feet above the highest adjacent grade of an existing structure or proposed structure or a proposed structural addition.
- 2.5 Interpretation:** The boundaries of the Floodplain District are determined by scaling distances on the Flood Insurance Rate Map.
- 2.51 Where a conflict exists between the floodplain limits illustrated on the official zoning map and actual field conditions, the flood elevations shall be the governing factor. The Zoning Administrator must interpret the boundary location based on the ground elevations that existed on the site on the date of the first National Flood Insurance Program map showing the area within the regulatory floodplain, and other available technical data.
- 2.52 Persons contesting the location of the district boundaries will be given a reasonable opportunity to present their case to the City Council and to submit technical evidence.
- 2.6 Abrogation and Greater Restrictions:** It is not intended by this ordinance to repeal, abrogate, or impair any existing easements, covenants, or other private agreements. However, where this ordinance imposes greater restrictions, the provisions of this ordinance prevail. All other ordinances inconsistent with this ordinance are hereby repealed to the extent of the inconsistency only.
- 2.7 Warning and Disclaimer of Liability:** This ordinance does not imply that areas outside the floodplain districts or land uses permitted within such districts will be free from flooding or flood damages. This ordinance does not create liability on the part of the City of Hendrum or its officers or employees for any flood damages that result from reliance on this ordinance or any administrative decision lawfully made hereunder.

- 2.8 Severability:** If any section, clause, provision, or portion of this ordinance is adjudged unconstitutional or invalid by a court of law, the remainder of this ordinance shall not be affected and shall remain in full force.
- 2.9 Definitions:** Unless specifically defined below, words or phrases used in this ordinance must be interpreted according to common usage and so as to give this ordinance its most reasonable application.

- 2.918 Farm Fence – A fence as defined by Minn. Statutes Section 344.02, Subd. 1(a)-(d). An open type fence of posts and wire is not considered to be a structure under this ordinance. Fences that have the potential to obstruct flood flows, such as chain link fences and rigid walls, are regulated as structures under this ordinance.

- 2.926 Lowest Floor – the lowest floor of the lowest enclosed area (including basement). An unfinished or flood resistant enclosure, used solely for parking of vehicles, building access, or storage in an area other than a basement area, is not considered a building’s lowest floor.
- 2.927 Manufactured Home – a structure, transportable in one or more sections, which is built on a permanent chassis and is designed for use with or without a permanent foundation when attached to the required utilities. The term “manufactured home” does not include the term “recreational vehicle.”

- 2.929 Principal Use or Structure – all uses or structures that are not accessory uses or structures.
- 2.930 One Hundred Year Floodplain – lands inundated by the “Regional Flood” (see definition).
- 2.931 Reach – a hydraulic engineering term to describe a longitudinal segment of a stream or river influenced by a natural or man-made obstruction. In an urban

area, the segment of a stream or river between two consecutive bridge crossings would most typically constitute a reach.

- 2.932 Recreational Vehicle – a vehicle that is built on a single chassis, is 400 square feet or less when measured at the largest horizontal projection, is designed to be self-propelled or permanently towable by a light duty truck, and is designed primarily not for use as a permanent dwelling but as temporary living quarters for recreational, camping, travel, or seasonal use. For the purposes of this ordinance, the term recreational vehicle is synonymous with the term “travel trailer/travel vehicle.”
- 2.933 Regional Flood – a flood which is representative of large floods known to have occurred generally in Minnesota and reasonably characteristic of what can be expected to occur on an average frequency in the magnitude of the 1% chance or 100-year recurrence interval. Regional flood is synonymous with the term "base flood" used in a flood insurance study.
- 2.934 Regulatory Flood Protection Elevation (RFPE) - an elevation not less than one foot above the elevation of the regional flood plus any increases in flood elevation caused by encroachments on the floodplain that result from designation of a floodway. Within the AO Zone, the RFPE is an elevation no lower than 3 feet above the highest adjacent grade of an existing structure or proposed structure or a proposed structural addition.
- 2.935 Repetitive Loss: Flood related damages sustained by a structure on two separate occasions during a ten year period for which the cost of repairs at the time of each such flood event on the average equals or exceeds 25% of the market value of the structure before the damage occurred.
- 2.936 Special Flood Hazard Area – a term used for flood insurance purposes synonymous with “One Hundred Year Floodplain.”
- 2.937 Structure - anything constructed or erected on the ground or attached to the ground or on-site utilities, including, but not limited to, buildings, factories, sheds, detached garages, cabins, manufactured homes, recreational vehicles not meeting the exemption criteria specified in Section 9.31 of this ordinance and other similar items.
- 2.938 Substantial Damage - means damage of any origin sustained by a structure where the cost of restoring the structure to its before damaged condition would equal or exceed 50 percent of the market value of the structure before the damage occurred.
- 2.939 Substantial Improvement - within any consecutive 365-day period, any reconstruction, rehabilitation (including normal maintenance and repair), repair after damage, addition, or other improvement of a structure, the cost of which equals or exceeds 50 percent of the market value of the structure before the

“start of construction” of the improvement. This term includes structures that have incurred “substantial damage,” regardless of the actual repair work performed. The term does not, however, include either:

- (a) Any project for improvement of a structure to correct existing violations of state or local health, sanitary, or safety code specifications which have been identified by the local code enforcement official and which are the minimum necessary to assure safe living conditions.
- (b) Any alteration of a “historic structure,” provided that the alteration will not preclude the structure’s continued designation as a “historic structure.” For the purpose of this ordinance, “historic structure” is as defined in 44 Code of Federal Regulations, Part 59.1.

2.10. Annexations: The Flood Insurance Rate Map panels adopted by reference into Section 2.3 above may include floodplain areas that lie outside of the corporate boundaries of Hendrum at the time of adoption of this ordinance. If any of these floodplain land areas are annexed into the City of Hendrum after the date of adoption of this ordinance, the newly annexed floodplain lands will be subject to the provisions of this ordinance immediately upon the date of annexation.

SECTION 3.0 ESTABLISHMENT OF FLOODPLAIN ZONING DISTRICT

3.1 Floodplain District: The Floodplain District includes those areas designated as Zone AE on the Flood Insurance Rate Map adopted in Section 2.3. The Floodplain District is an overlay district that is superimposed on all existing zoning districts. The standards imposed in the overlay districts are in addition to any other requirements set forth in this ordinance. In case of a conflict, the more restrictive standards apply.

3.2 Compliance: Within the floodplain district established in this ordinance, the use of any land, the use, size, type and location of structures on lots, the installation and maintenance of transportation, utility, water supply and waste treatment facilities, and the subdivision of land must comply with the terms of this ordinance and other applicable regulations. All uses not listed as permitted uses or conditional uses in Section 5.0 are prohibited.

In addition, a caution is provided here that:

- 3.21** New and replacement manufactured homes and certain recreational vehicles are subject to the general provisions of this ordinance and specifically Section 9.0.
- 3.22** Modifications, additions, structural alterations, normal maintenance and repair, or repair after damage to existing nonconforming structures and nonconforming uses of structures or land are regulated by the general provisions of this ordinance and specifically Section 11.0.
- 3.23** As-built elevations for elevated or flood-proofed structures must be certified by ground surveys and flood-proofing techniques must be designed and certified by a

registered professional engineer or architect as specified in the general provisions of this ordinance and specifically as stated in Section 10.0 of this ordinance.

- 3.24 Critical facilities, as defined in Section 2.915, must be elevated or flood-proofed, in accordance with the standards Section 5, but to the Regulatory Flood Protection Elevation plus 1 foot.

SECTION 4.0 RESERVED *(typically used for Floodway District, where present)*

SECTION 5.0 FLOODPLAIN DISTRICT

5.1 Permitted Uses: Permitted uses are those uses of land or structures allowed in the underlying zoning district(s) that comply with the standards in Sections 5.2. If no pre-existing, underlying zoning districts exist, then any residential or nonresidential structure or use of a structure or land is a permitted use provided it does not constitute a public nuisance.

5.2 Standards for Permitted Uses:

- 5.21 All structures, including accessory structures, must be elevated on fill so that the lowest floor, as defined, is at or above the regulatory flood protection elevation. The finished fill elevation for structures must be no lower than one foot below the regulatory flood protection elevation and the fill must extend at the same elevation at least 15 feet beyond the outside limits of the structure.
- (a) As an alternative to elevation on fill, an accessory structure that constitutes a minimal investment and that does not exceed 576 square feet in size may be internally flood-proofed in accordance with (b) or (c) below. All flood-proofed accessory structures must meet the following additional standards:
- (1) The structure must be adequately anchored to prevent flotation, collapse or lateral movement and designed to equalize hydrostatic flood forces on exterior walls; and
 - (2) Any mechanical and utility equipment in the structure must be elevated to or above the regulatory flood protection elevation or properly flood-proofed.
- (b) Accessory structures may be structurally dry flood-proofed in accordance with the FP-1 or FP-2 floodproofing classifications in the State Building Code.
- (c) An accessory structure may be internally/wet flood-proofed to the FP-3 or FP-4 floodproofing classifications in the State Building Code. A detached garage may only be used for parking of vehicles and limited storage. All wet flood-proofed structures must meet the following standards:
- (1) To allow for the equalization of hydrostatic pressure, there must be a minimum of two “automatic” openings in the outside walls of the

structure, with a total net area of not less than one square inch for every square foot of enclosed area subject to flooding; and

- (2) There must be openings on at least two sides of the structure and the bottom of all openings must be no higher than one foot above the lowest adjacent grade to the structure. Using human intervention to open a garage door prior to flooding will not satisfy this requirement for automatic openings.

5.22 The cumulative placement of fill or similar material on a parcel must not exceed 1,000 cubic yards, unless the fill is specifically intended to elevate a structure in accordance with Section 5.21 of this ordinance, or if allowed as a conditional use under Section 5.33 below.

5.23 The storage of any materials or equipment must be elevated on fill to the regulatory flood protection elevation.

5.24 The storage or processing of materials that are, in time of flooding, flammable, explosive, or potentially injurious to human, animal, or plant life is prohibited.

5.25 Fill must be properly compacted and the slopes must be properly protected by the use of riprap, vegetative cover or other acceptable method.

5.26 All new principal structures must have vehicular access at or above an elevation not more than two feet below the regulatory flood protection elevation, or must have a flood warning /emergency evacuation plan acceptable to the City Council.

5.27 Accessory uses such as yards, railroad tracks, and parking lots may be at an elevation lower than the regulatory flood protection elevation. However, any facilities used by employees or the general public must be designed with a flood warning system that provides adequate time for evacuation if the area is inundated to a depth and velocity such that the depth (in feet) multiplied by the velocity (in feet per second) would exceed a product of four upon occurrence of the regional (1% chance) flood.

5.28 Interference with normal manufacturing/industrial plant operations must be minimized, especially along streams having protracted flood durations. In considering permit applications, due consideration must be given to the needs of industries with operations that require a floodplain location.

5.29 Flood fringe developments must not adversely affect the hydraulic capacity of the channel and adjoining floodplain of any tributary watercourse or drainage system.

5.30 Manufactured homes and recreational vehicles must meet the standards of Section 9 of this ordinance.

5.3 **Conditional Uses:** The following uses and activities may be allowed as conditional uses, if allowed in the underlying zoning district(s) or any applicable overlay district, following the procedures in Section 10.4 of this ordinance. Conditional uses must meet the standards in Sections 5.24 through 5.30 and Section 5.4.

- 5.31 Any structure that is not elevated on fill or flood-proofed in accordance with Section 5.21 of this ordinance.
- 5.32 Storage of any material or equipment below the regulatory flood protection elevation.
- 5.33 The cumulative placement of more than 1,000 cubic yards of fill when the fill is not being used to elevate a structure in accordance with Section 5.21 of this ordinance.

5.4 Standards for Conditional Uses:

- 5.41 The standards listed in Sections 5.24 through 5.30 apply to all conditional uses.
- 5.42 Basements, as defined by Section 2.913 of this ordinance, are subject to the following:
 - (a) Residential basement construction is not allowed below the regulatory flood protection elevation except as authorized in Section 5.46.
 - (b) Non-residential basements may be allowed below the regulatory flood protection elevation provided the basement is structurally dry flood-proofed in accordance with Section 5.44 of this ordinance or as authorized in Section 5.46.
- 5.43 All areas of nonresidential structures, including basements, to be placed below the regulatory flood protection elevation must be flood-proofed in accordance with the structurally dry floodproofing classifications in the State Building Code. Structurally dry floodproofing must meet the FP-1 or FP-2 floodproofing classification in the State Building Code, which requires making the structure watertight with the walls substantially impermeable to the passage of water and with structural components capable of resisting hydrostatic and hydrodynamic loads and the effects of buoyancy. Structures wet flood-proofed to the FP-3 or FP-4 classification are not permitted.
- 5.44 The placement of more than 1,000 cubic yards of fill or other similar material on a parcel (other than for the purpose of elevating a structure to the regulatory flood protection elevation) must comply with an approved erosion/sedimentation control plan.
 - (a) The plan must clearly specify methods to be used to stabilize the fill on site for a flood event at a minimum of the regional (1% chance) flood event.
 - (b) The plan must be prepared and certified by a registered professional engineer or other qualified individual acceptable to the City Council.
 - (c) The plan may incorporate alternative procedures for removal of the material from the floodplain if adequate flood warning time exists.
- 5.45 Storage of materials and equipment below the regulatory flood protection elevation must comply with an approved emergency plan providing for removal of such materials within the time available after a flood warning.

5.46 When the Federal Emergency Agency (FEMA) has issued a letter of map revision based on fill (LOMR-F) for land elevated by fill to the one (1) percent chance flood elevation, the area elevated by fill remains in the regulatory floodplain and subject to the provisions of this chapter. A structure may be placed on the area elevated by fill with the lowest floor below the regulatory flood protection elevation, provided the structure meets the following provisions:

- (a) The top of the immediate floor above any basement area shall be placed at or above the regulatory flood protection elevation.
- (b) Any area of the structure placed below the regulatory flood protection elevation shall meet the “reasonable safe from flooding” standards in the FEMA publication entitled “Ensuring That Structures built on Fill In or Near Special Flood Hazard areas Are Reasonably Safe From Flooding,” Technical Bulletin 10-01, a copy of which is hereby adopted by reference and made part of this chapter. In accordance with the provisions of this chapter, and specifically Section 10.44(e) the applicant shall submit documentation that the structure is designed and built in accordance with either the “Simplified Approach” or “Engineered Basement Option” found in FEMA Technical Bulletin 10-01.

5.47 RESERVED FOR OPTIONAL ALTERNATIVE ELEVATION METHODS (*available upon request if necessary*)

SECTION 6.0 RESERVED (*typically used for General Floodplain, not present in this area*)

SECTION 7.0 LAND DEVELOPMENT STANDARDS

7.1 In General: Recognizing that flood prone areas may exist outside of the designated floodplain districts, the requirements of this section apply to all land within the City of Hendrum.

7.2 Subdivisions: No land may be subdivided which is unsuitable for reasons of flooding or inadequate drainage, water supply or sewage treatment facilities. Manufactured home parks and recreational vehicle parks or campgrounds are considered subdivisions under this ordinance.

7.21 All lots within the floodplain district must be able to contain a building site at or above the regulatory flood protection elevation.

7.22 All subdivisions must have road access both to the subdivision and to the individual building sites no lower than two feet below the regulatory flood protection elevation, unless a flood warning emergency plan for the safe evacuation of all vehicles and people during the regional (1% chance) flood has been approved by the City Council. The plan must be prepared by a registered engineer or other qualified individual, and must demonstrate that adequate time and personnel exist to carry out the evacuation.

- 7.23 For all subdivisions in the floodplain, the Floodplain District boundaries, the regulatory flood protection elevation and the required elevation of all access roads must be clearly labeled on all required subdivision drawings and platting documents.
- 7.24 If a subdivision proposal or other proposed new development is in a flood prone area, any such proposal must be reviewed to assure that:
- (a) All such proposals are consistent with the need to minimize flood damage within the flood prone area,
 - (b) All public utilities and facilities, such as sewer, gas, electrical, and water systems are located and constructed to minimize or eliminate flood damage, and
 - (c) Adequate drainage is provided to reduce exposure of flood hazard.
- 7.3 **Building Sites:** If a proposed building site is in a flood prone area, all new construction and substantial improvements (including the placement of manufactured homes) must be:
- (a) Designed (or modified) and adequately anchored to prevent floatation, collapse, or lateral movement of the structure resulting from hydrodynamic and hydrostatic loads, including the effects of buoyancy;
 - (b) Constructed with materials and utility equipment resistant to flood damage;
 - (c) Constructed by methods and practices that minimize flood damage; and
 - (d) Constructed with electrical, heating, ventilation, plumbing, and air conditioning equipment and other service facilities that are designed and/or located so as to prevent water from entering or accumulating within the components during conditions of flooding.

SECTION 8.0 PUBLIC UTILITIES, RAILROADS, ROADS, AND BRIDGES

- 8.1 **Public Utilities:** All public utilities and facilities such as gas, electrical, sewer, and water supply systems to be located in the floodplain must be flood-proofed in accordance with the State Building Code or elevated to the regulatory flood protection elevation.
- 8.2 **Public Transportation Facilities:** Railroad tracks, roads, and bridges to be located within the floodplain must comply with Section 5.0 of this ordinance. These transportation facilities must be elevated to the regulatory flood protection elevation where failure or interruption of these facilities would result in danger to the public health or safety or where such facilities are essential to the orderly functioning of the area. Minor or auxiliary roads or railroads may be constructed at a lower elevation where failure or interruption of transportation services would not endanger the public health or safety.
- 8.3 **On-site Water Supply and Sewage Treatment Systems:** Where public utilities are not provided: 1) On-site water supply systems must be designed to minimize or eliminate

infiltration of flood waters into the systems; and 2) New or replacement on-site sewage treatment systems must be designed to minimize or eliminate infiltration of flood waters into the systems and discharges from the systems into flood waters and they must not be subject to impairment or contamination during times of flooding. Any sewage treatment system designed in accordance with the State's current statewide standards for on-site sewage treatment systems is considered to be in compliance with this Section.

SECTION 9.0 MANUFACTURED HOMES, MANUFACTURED HOME PARKS, AND RECREATIONAL VEHICLES.

9.1 Manufactured Homes: New manufactured home parks and expansions to existing manufactured home parks are prohibited in the Floodplain district. For existing manufactured home parks or lots of record, the following requirements apply:

9.11 If allowed in the Floodplain District, placement or replacement of manufactured home units is subject to the requirements of Section 5 of this ordinance and the following standards.

- (a) New and replacement manufactured homes must be elevated in compliance with Section 5 of this ordinance and must be securely anchored to an adequately anchored foundation system that resists flotation, collapse and lateral movement. Methods of anchoring may include, but are not limited to, use of over-the-top or frame ties to ground anchors. This requirement is in addition to applicable state or local anchoring requirements for resisting wind forces.
- (b) New or replacement manufactured homes in existing manufactured home parks must meet the vehicular access requirements for subdivisions in Section 7.22.

9.2 Recreational Vehicles: New recreational vehicle parks or campgrounds and expansions to existing recreational vehicle parks or campgrounds are prohibited in the Floodplain District. Placement of recreational vehicles in existing recreational vehicle parks or campgrounds in the floodplain must meet the exemption criteria below or be treated as new structures meeting the requirements of this ordinance.

9.21 Recreational vehicles are exempt from the provisions of this ordinance if they are placed in any of the following areas and meet the criteria listed in Section 9.22:

- (a) Individual lots or parcels of record.
- (b) Existing commercial recreational vehicle parks or campgrounds.
- (c) Existing condominium-type associations.

9.22 Criteria for Exempt Recreational Vehicles:

- (a) The vehicle must have a current license required for highway use.

- (b) The vehicle must be highway ready, meaning on wheels or the internal jacking system, attached to the site only by quick disconnect type utilities commonly used in campgrounds and recreational vehicle parks.
- (c) No permanent structural type additions may be attached to the vehicle.
- (d) The vehicle and associated use must be permissible in any pre-existing, underlying zoning district.
- (e) Any accessory structure in the Floodplain District must be constructed of flood-resistant materials and be securely anchored, meeting the requirements applicable to manufactured homes in Section 9.22.
- (f) An accessory structure must constitute a minimal investment

9.23 Recreational vehicles that are exempt in Section 9.22 lose this exemption when development occurs on the site that exceeds a minimal investment for an accessory structure such as a garage or storage building. The recreational vehicle and all accessory structures will then be treated as new structures subject to the elevation and floodproofing requirements of Section 5.0 of this ordinance. No development or improvement on the parcel or attachment to the recreational vehicle is allowed that would hinder the removal of the vehicle should flooding occur.

SECTION 10.0 ADMINISTRATION

10.1 Zoning Administrator: A Zoning Administrator or other official designated by the City Council must administer and enforce this ordinance.

10.2 Permit Requirements:

10.21 Permit Required. A permit must be obtained from the Zoning Administrator prior to conducting the following activities:

- (a) The erection, addition, modification, rehabilitation, or alteration of any building, structure, or portion thereof. Normal maintenance and repair also requires a permit if such work, separately or in conjunction with other planned work, constitutes a substantial improvement as defined in this ordinance.
- (b) The use or change of use of a building, structure, or land.
- (c) The construction of a dam, fence, or on-site septic system, although a permit is not required for a farm fence as defined in this ordinance.
- (d) The change or extension of a nonconforming use.
- (e) The repair of a structure that has been damaged by flood, fire, tornado, or any other source.
- (f) The placement of fill, excavation of materials, or the storage of materials or equipment within the floodplain.

(g) Relocation or alteration of a watercourse, unless a public waters work permit has been applied for.

(h) Any other type of “development” as defined in this ordinance.

10.22 Application for Permit. Permit applications must be submitted to the Zoning Administrator on forms provided by the Zoning Administrator. The permit application must include the following as applicable:

- (a) A site plan showing all pertinent dimensions, existing or proposed buildings, structures, and significant natural features having an influence on the permit.
- (b) Location of fill or storage of materials in relation to the stream channel.
- (c) Copies of any required municipal, county, state or federal permits or approvals.
- (d) Other relevant information requested by the Zoning Administrator as necessary to properly evaluate the permit application.

10.23 Certificate of Zoning Compliance for a New, Altered, or Nonconforming Use. No building, land or structure may be occupied or used in any manner until a certificate of zoning compliance has been issued by the Zoning Administrator stating that the use of the building or land conforms to the requirements of this ordinance.

10.24 Certification. The applicant is required to submit certification by a registered professional engineer, registered architect, or registered land surveyor that the finished fill and building elevations were accomplished in compliance with the provisions of this ordinance. Floodproofing measures must be certified by a registered professional engineer or registered architect.

10.25 Record of First Floor Elevation. The Zoning Administrator must maintain a record of the elevation of the lowest floor (including basement) of all new structures and alterations or additions to existing structures in the floodplain. The Zoning Administrator must also maintain a record of the elevation to which structures and alterations or additions to structures are flood-proofed.

10.26 Notifications for Watercourse Alterations. Before authorizing any alteration or relocation of a river or stream, the Zoning Administrator must notify adjacent communities. If the applicant has applied for a permit to work in public waters pursuant to Minnesota Statutes, Section 103G.245, this will suffice as adequate notice. A copy of the notification must also be submitted to the Chicago Regional Office of the Federal Emergency Management Agency (FEMA).

10.27 Notification to FEMA When Physical Changes Increase or Decrease Base Flood Elevations. As soon as is practicable, but not later than six months after the date such supporting information becomes available, the Zoning Administrator must notify the Chicago Regional Office of FEMA of the changes by submitting a copy of the relevant technical or scientific data.

10.3 Variances:

- 10.31 Variances. The City Council may authorize upon appeal in specific cases such relief or variance from the terms of this ordinance as will not be contrary to the public interest. An application for a variance to the provisions of this ordinance will be processed and reviewed in accordance with Minnesota Statutes, Chapter 462 and Section 5, Subdivision 6 of the Zoning Ordinance.
- 10.32 Adherence to State Floodplain Management Standards. A variance must not allow a use that is not allowed in that district, permit a lower degree of flood protection than the regulatory flood protection elevation for the particular area, or permit standards lower than those required by state law.
- 10.33 Additional Variance Criteria. The following additional variance criteria of the Federal Emergency Management Agency must be satisfied:
- (a) Variances must not be issued by a community within any designated regulatory floodway if any increase in flood levels during the base flood discharge would result.
 - (b) Variances may only be issued by a community upon (i) a showing of good and sufficient cause, (ii) a determination that failure to grant the variance would result in exceptional hardship to the applicant, and (iii) a determination that the granting of a variance will not result in increased flood heights, additional threats to public safety, extraordinary public expense, create nuisances, cause fraud on or victimization of the public, or conflict with existing local laws or ordinances.
 - (c) Variances may only be issued upon a determination that the variance is the minimum necessary, considering the flood hazard, to afford relief.
- 10.34 Flood Insurance Notice. The Zoning Administrator must notify the applicant for a variance that: 1) The issuance of a variance to construct a structure below the base flood level will result in increased premium rates for flood insurance up to amounts as high as \$25 for \$100 of insurance coverage; and 2) Such construction below the base or regional flood level increases risks to life and property. Such notification must be maintained with a record of all variance actions.
- 10.35 General Considerations. The community may consider the following factors in granting variances and imposing conditions on variances and conditional uses in floodplains:
- (a) The potential danger to life and property due to increased flood heights or velocities caused by encroachments;
 - (b) The danger that materials may be swept onto other lands or downstream to the injury of others;

- (c) The proposed water supply and sanitation systems, if any, and the ability of these systems to minimize the potential for disease, contamination and unsanitary conditions;
- (d) The susceptibility of any proposed use and its contents to flood damage and the effect of such damage on the individual owner;
- (e) The importance of the services to be provided by the proposed use to the community;
- (f) The availability of viable alternative locations for the proposed use that are not subject to flooding;
- (g) The compatibility of the proposed use with existing development and development anticipated in the foreseeable future;
- (h) The safety of access to the property in times of flood for ordinary and emergency vehicles;
- (i) The expected heights, velocity, duration, rate of rise and sediment transport of the flood waters expected at the site.

10.36 Submittal of Hearing Notices to the Department of Natural Resources (DNR). The Zoning Administrator must submit hearing notices for proposed variances to the DNR sufficiently in advance to provide at least ten days' notice of the hearing. The notice may be sent by electronic mail or U.S. Mail to the respective DNR area hydrologist.

10.37 Submittal of Final Decisions to the DNR. A copy of all decisions granting variances must be forwarded to the DNR within ten days of such action. The notice may be sent by electronic mail or U.S. Mail to the respective DNR area hydrologist.

10.38 Record-Keeping. The Zoning Administrator must maintain a record of all variance actions, including justification for their issuance, and must report such variances in an annual or biennial report to the Administrator of the National Flood Insurance Program, when requested by the Federal Emergency Management Agency.

10.4 Conditional Uses:

10.41 Administrative Review. An application for a conditional use permit under the provisions of this ordinance will be processed and reviewed in accordance with Section 5, Subdivision 5 of the zoning ordinance.

10.42 Factors Used in Decision-Making. In passing upon conditional use applications, the City Council must consider all relevant factors specified in other sections of this ordinance, and those factors identified in Section 10.35 of this ordinance.

10.43 Time for Acting on Application. The City Council must act on an application in the manner described above within 60 days from receiving the complete application, in accordance with Minnesota Statutes Section 15.99.

10.44 Conditions Attached to Conditional Use Permits. The City Council may attach such conditions to the granting of conditional use permits as it deems necessary to

fulfill the purposes of this ordinance. Such conditions may include, but are not limited to, the following:

- (a) Modification of waste treatment and water supply facilities.
- (b) Limitations on period of use, occupancy, and operation.
- (c) Imposition of operational controls, sureties, and deed restrictions.
- (d) Requirements for construction of channel modifications, compensatory storage, dikes, levees, and other protective measures.
- (e) Floodproofing measures, in accordance with the State Building Code and this ordinance. The applicant must submit a plan or document certified by a registered professional engineer or architect that the floodproofing measures are consistent with the regulatory flood protection elevation and associated flood factors for the particular area.

10.44 Submittal of Hearing Notices to the Department of Natural Resources (DNR). The Zoning Administrator must submit hearing notices for proposed conditional uses to the DNR sufficiently in advance to provide at least ten days' notice of the hearing. The notice may be sent by electronic mail or U.S. Mail to the respective DNR area hydrologist.

10.45 Submittal of Final Decisions to the DNR. A copy of all decisions granting conditional uses must be forwarded to the DNR within ten days of such action. The notice may be sent by electronic mail or U.S. Mail to the respective DNR area hydrologist.

SECTION 11.0 NONCONFORMITIES

11.1 **Continuance of Nonconformities:** A use, structure, or occupancy of land which was lawful before the passage or amendment of this ordinance but which is not in conformity with the provisions of this ordinance may be continued subject to the following conditions. Historic structures, as defined in Section 2.939(b) of this ordinance, are subject to the provisions of Sections 11.11 – 11.16 of this ordinance.

11.11 A nonconforming use, structure, or occupancy must not be expanded, changed, enlarged, or altered in a way that increases its nonconformity.

11.12 Any structural alteration or addition to a nonconforming structure or nonconforming use which would result in increasing the flood damage potential of that structure or use must be protected to the regulatory flood protection elevation in accordance with any of the elevation on fill or floodproofing techniques (i.e., FP-1 thru FP-4 floodproofing classifications) allowable in the State Building Code, except as further restricted in 11.13 and 11.17 below.

- 11.13 The cost of all structural alterations or additions to any nonconforming structure over the life of the structure may not exceed 50 percent of the market value of the structure unless the conditions of this Section are satisfied. The cost of all structural alterations and additions must include all costs such as construction materials and a reasonable cost placed on all manpower or labor. If the cost of all previous and proposed alterations and additions exceeds 50 percent of the market value of the structure, then the structure must meet the standards of Section 5.0 of this ordinance for new structures.
- 11.14 If any nonconforming use, or any use of a nonconforming structure, is discontinued for more than one year, any future use of the premises must conform to this ordinance. The Assessor must notify the Zoning Administrator in writing of instances of nonconformities that have been discontinued for a period of more than one year.
- 11.15 If any nonconformity is substantially damaged, as defined in Section 2.938 of this ordinance, it may not be reconstructed except in conformity with the provisions of this ordinance. The applicable provisions for establishing new uses or new structures in Section 5.0 will apply.
- 11.16 If any nonconforming use or structure experiences a repetitive loss, as defined in Section 2.935 of this ordinance, it must not be reconstructed except in conformity with the provisions of this ordinance.
- 11.17 Any substantial improvement, as defined in Section 2.939 of this ordinance, to a nonconforming structure requires that the existing structure and any additions must meet the requirements of Section 5.0 of this ordinance for new structures.

SECTION 12.0 PENALTIES AND ENFORCEMENT

- 12.1 **Violation Constitutes a Misdemeanor:** Violation of the provisions of this ordinance or failure to comply with any of its requirements (including violations of conditions and safeguards established in connection with grants of variances or conditional uses) constitute a misdemeanor and will be punishable as defined by law.
- 12.2 **Enforcement:** Nothing in this ordinance restricts the City of Hendrum from taking such other lawful action as is necessary to prevent or remedy any violation. Such actions may include but are not limited to the following:
- 12.21 When an Ordinance violation is either discovered by or brought to the attention of the Zoning Administrator, the Zoning Administrator shall immediately investigate the situation and document the nature and extent of the violation of the official control. As soon as is reasonably possible, this information will be submitted to the appropriate Department of Natural Resources and Federal Emergency Management Agency offices along with the City's plan of action to correct the violation to the degree possible.

12.22 The Zoning Administrator shall notify the suspected party of the requirements of this ordinance and all other official controls and the nature and extent of the suspected violation of these controls. If the structure and/or use is under construction or development, the Zoning Administrator may order the construction or development immediately halted until a proper permit or approval is granted by the Community. If the construction or development is already completed, then the Zoning Administrator may either: (1) issue an order identifying the corrective actions that must be made within a specified time period to bring the use or structure into compliance with the official controls; or (2) notify the responsible party to apply for an after-the-fact permit/development approval within a specified period of time not to exceed 30 days.

12.23 If the responsible party does not appropriately respond to the Zoning Administrator within the specified period of time, each additional day that lapses will constitute an additional violation of this ordinance and shall be prosecuted accordingly. The Zoning Administrator may also upon the lapse of the specified response period notify the landowner to restore the land to the condition which existed prior to the violation of this ordinance.

12.24 The Zoning Administrator and City Council may utilize the full array of enforcement actions available to them, including but not limited to prosecution and fines, injunctions, after-the-fact permits, orders for corrective measures or a request to the National Flood Insurance Program for denial of flood insurance availability to the guilty party. The City must act in good faith to enforce these official controls and to correct ordinance violations to the extent possible so as not to jeopardize its eligibility in the National Flood Insurance Program.

SECTION 13.0 AMENDMENTS

13.1 **Floodplain Designation – Restrictions on Removal:** The floodplain designation on the Official Zoning Map must not be removed from floodplain areas unless it can be shown that the designation is in error or that the area has been filled to or above the elevation of the regulatory flood protection elevation and is contiguous to lands outside the floodplain. Special exceptions to this rule may be permitted by the Commissioner of the Department of Natural Resources (DNR) if the Commissioner determines that, through other measures, lands are adequately protected for the intended use.

13.2 **Amendments Require DNR Approval:** All amendments to this ordinance must be submitted to and approved by the Commissioner of the Department of Natural Resources (DNR) prior to adoption. The Commissioner must approve the amendment prior to community approval.

13.3 **Map Revisions Require Ordinance Amendments.** The floodplain district regulations must be amended to incorporate any revisions by the Federal Emergency Management Agency to the floodplain maps adopted in Section 2.3 of this ordinance.

EFFECTIVE DATE: This ordinance shall be in full force and effect from and after its passage and approval and publication, as required by law and/or charter.

SECTION SIX. NUISANCE PARKING AND STORAGE.

Declaration of nuisance. The outside parking and storage on residentially zoned property of large numbers of vehicles and vehicles, materials, supplies, or equipment not customarily used for residential purposes in violation of the requirements set forth below is declared to be a public nuisance because it: (1) obstructs views on streets and private property, (2) creates cluttered and otherwise unsightly areas, (3) prevents the full use of residential streets for residential parking, (4) introduces commercial advertising signs into areas where commercial advertising signs are otherwise prohibited, (5) decreases adjoining landowners' and occupants' use and enjoyment of their property

and neighborhood, and (6) otherwise adversely affects property values and neighborhood patterns.

Unlawful parking and storage.

- 6.00** A person must not place, store, or allow the placement or storage of recreational vehicles and/or seasonal vehicles including but not limited to boats and ice fishing houses outside continuously for longer than twenty-four (24) hours in the front yard area of residential property.

- 6.03** A person must not cause, undertake, permit, or allow the outside parking and storage of vehicles on residential property unless it complies with the following requirements:
- a.** No more than four (4) vehicles per lawful dwelling unit may be parked or stored anywhere outside on residential property, except as otherwise permitted or required by the city because of nonresidential characteristics of the property. The maximum number does not include vehicles of occasional guests who do not reside on the property.
 - b.** Vehicles that are parked or stored outside in the front yard areas must be on a paved or graveled parking surface or driveway area.
 - c.** Vehicles, watercraft, and other articles stored outside on residential property must be owned by a person who resides on that property. Students who are away from school for periods of time but still claim the property as their legal residence will be considered residents on the property.

SECTION SEVEN. INOPERABLE MOTOR VEHICLES.

This section does not apply to a motor vehicle enclosed in a building.

- 7.01 Declaration of nuisance.** Any motor vehicle described in this section shall constitute a hazard to the health and welfare of the residents of the community as such vehicles can harbor noxious diseases, furnish a shelter and breeding ground for vermin, and present physical danger to the safety and well-being of children and citizens. Motor vehicles also contain various fluids which, if

released into the environment, can and do cause significant health risks to the community.

7.02 Inoperable motor vehicles. It shall be unlawful to keep, park, store, or abandon any motor vehicle that is not in operating condition, partially dismantled, used for repair of parts or as a source of repair or replacement parts for other vehicles, kept for scrapping, dismantling, or salvage of any kind, or which is not properly licensed for operation within the state, pursuant to Minn. Stat. § 168B.011, subd. 3, as it may be amended from time to time.

SECTION EIGHT. BUILDING MAINTENANCE AND APPEARANCE.

8.01 Declaration of nuisance. Buildings, fences and other structures that have been so poorly maintained that their physical appearance detract from the surrounding neighborhood are declared to be public nuisances because they (1) are unsightly, (2) decrease adjoining landowners and occupants' enjoyment of their property and neighborhood, and (3) adversely affect property values and neighborhood patterns.

8.02 Standards. A building, fence or other structure is a public nuisance if it does not comply with the following requirements:

- a. No part of any exterior surface may have deterioration, holes, breaks, gaps, loose or rotting boards or timbers.
- b. Every exterior surface that has had a surface finish such as paint applied must be maintained to avoid noticeable deterioration of the finish. No wall or other exterior surface may have peeling, cracked, chipped or otherwise deteriorated surface finish on more than 20% of:
 - i. Any on wall or flat surface; or
 - ii. All door and window moldings, eaves, gutters, and similar projections on any one side or surface.
- c. No glass, including windows and exterior light fixtures, may be broken or cracked, and no screens may be torn or separated from moldings.
- d. Exterior doors and shutters must be hung properly and have an operable mechanism to keep them securely shut or in place.
- e. Cornices, moldings, lintels, sills, bay or dormer windows and similar projections must be kept in good repair and free from cracks and defects that make them hazardous or unsightly.
- f. Roof surfaces must be tight and have no defects that admit water. All roof drainage systems must be secured and hung properly.

- g. Chimneys, antennae, air vents, and other similar projections must be structurally sound and in good repair. These projections must be secured properly, where applicable, to an exterior wall or exterior roof.
- h. Foundations must be structurally sound and in good repair.

SECTION NINE. ENFORCEMENT.

- 9.01** Any Licensed Peace Officer of the city's Police Department, or the County Sheriff, or any Deputy Sheriff shall have the authority to enforce any provision of this ordinance relating to public nuisances within this jurisdiction.
- 9.02** As permitted by M.S. 626.862, as it may be amended from time to time, the City Clerk or other designated city official shall have the authority to administer and enforce this ordinance. In addition, under that statutory authority, certain individuals designated by the City Council shall have the authority to administer and enforce the provisions specified.
- 9.03** Any peace officer or other designated city official shall have the power to inspect private premises and take all reasonable precautions to prevent the commission and maintenance of public nuisances. Except in emergency situations of imminent danger to human life and safety, no peace officer or designated city official will enter private property for the purpose of inspecting or preventing public nuisances without the permission of the owner, resident, or other person in control of the property, unless the officer or person designated has obtained a warrant or order from a court of competent jurisdiction authorizing entry.
- 9.04** Nothing in this section shall be construed to limit the authority of the City to enter private property in urgent emergency situations where there is an imminent danger in order to protect the public health, safety and welfare.

SECTION TEN. ABATEMENT PROCEDURE.

- 10.01 Procedure.** Whenever the City Council or other designated official determines that a public nuisance is being maintained or exists on the premises in the city, the City Clerk shall notify in writing the owner of record and occupant of the premises of such fact and order that the nuisance be terminated or abated. The notice of violation shall specify the steps to be taken to abate the nuisance and the time within which the nuisance is to be abated. If the notice of violation is not complied with within the time specified, the official shall report that fact forthwith to the City Council. Thereafter, the City Council may, after notice to the owner or occupant and an opportunity to be heard, determine that the condition identified in the notice of violation is a nuisance and further order that if the nuisance is not abated within the time prescribed by the City Council, the city may seek injunctive relief by serving a copy of the City Council

order and notice of motion for summary enforcement or obtain an administrative search and seizure warrant and abate the nuisance.

- 10.02 Notice.** Written notice of the violation; notice of the time, date, place, and subject of any hearing before the City Council; notice of the City Council order; and notice of motion for summary enforcement hearing shall be served by a peace officer or designated official on the owner of record or occupant of the premises either in person or deposited in first class mail documenting with an affidavit of mailing. If the premise is not occupied, the owner of record is unknown, or if the owner of record or occupant refuses to accept notice, notice of the violation shall be served by positing it on the premises.
- 10.03 Emergency procedure; summary enforcement.** In cases of emergency, where delay in abatement required to complete the procedure and notice requirements as set forth in subdivisions (A) and (B) of this section will permit a continuing nuisance to unreasonably endanger public health, safety, or welfare, the City Council may order summary enforcement and abate the nuisance. To proceed with summary enforcement, the peace officer or other designated official shall determine that a public nuisance exists or is being maintained on premises in the city and that delay in abatement will unreasonably endanger public health, safety, or welfare. The officer or designated official shall notify in writing the occupant or owner of the premises of the nature of the nuisance, whether public health, safety, or welfare will be unreasonably endangered by delay in abatement required to complete the procedure set forth in subdivision (A) of this section and may order that the nuisance be immediately terminated or abated. If the nuisance is not immediately terminated or abated, the City Council may order summary enforcement and abate the nuisance.
- 10.04 Immediate abatement.** Nothing in this section shall prevent the city, without notice or other process, from immediately abating any condition that poses an imminent and serious hazard to human life or safety.
- 10.05 Unlawful parties or gatherings.** When law enforcement determines that a gathering is creating such a noise disturbance as prohibited under Section Four, Subdivision D, the officer may order all persons present, other than the owner or tenant of the premises where the disturbance is occurring, to disburse immediately. No person shall refuse to leave after being ordered to do so by law enforcement. Every owner or tenant of such premises who has knowledge of the disturbance shall make every reasonable effort to see that the disturbance is stopped.
- 10.06 Judicial remedy.** Nothing in this section shall prevent the city from seeking a judicial remedy when no other adequate administrative remedy exists.

SECTION ELEVEN. RECOVERY OF COST.

- 11.01 Personal liability.** The owner of the premises on which a nuisance has been abated by the city, or a person who has caused a public nuisance on property not owned by that person, shall be personally liable for the cost to the city of the abatement, including administrative costs. As soon as the work has been completed and the cost determined, the city clerk or other city official shall prepare a bill for the cost and mail it to the owner. Thereupon the amount shall be immediately due and payable at the office of the city clerk.
- 11.02 Assessment.** After notice and hearing as provided in Minn. Stat. § 429.061, as it may be amended from time to time, if the nuisance is a public health or safety hazard on private property, the accumulation of snow and ice on public sidewalks, the growth of weeds on private property or outside the traveled portion of streets, or unsound or insect-infected trees, the city clerk shall, on or before September 1 next following abatement of the nuisance, list the total unpaid charges along with all other such charges as well as other charges for current services to be assessed under Minn. Stat. § 429.101 against each separate lot or parcel to which the charges are attributable. The City Council may then spread the charges against the property under that statute and any other pertinent statutes for certification to the county auditor and collection along with current taxes the following year or in annual installments, not exceeding ten (10), as the City Council may determine in each case.

SECTION TWELVE. PENALTY.

Any person convicted of violating any provision of this ordinance is guilty of a misdemeanor and shall be punished by a fine not to exceed one thousand dollars (\$1,000.00) or imprisonment for not more than ninety (90) days, or both, plus the costs of prosecution in either case.

SECTION THIRTEEN. SUPPLEMENTAL ADMINISTRATIVE PENALTIES.

- 13.01** In addition to the penalties established in this ordinance and the enforcement powers granted in Section 9.02, supplemental administrative penalties are hereby established.
- 13.02** These administrative penalty procedures in this section are intended to provide the public and the city with an informal, cost effective and expeditious alternative to traditional criminal charges for violations of this ordinance. The procedures are intended to be voluntary on the part of those who have been charged with those offenses.

- 13.03** Administrative penalties for violations of various provisions of this ordinance are hereby established. In order to be effective, an administrative penalty for a particular violation must be established by resolution before the violation occurred.
- 13.04** In the discretion of, and upon the finding of probable cause to believe that a violation has occurred, the peace officer, City Clerk, or other authorized person giving notice of an alleged violation of a provision of this ordinance, in a written notice of an alleged violation, sent by first class mail to the person who is alleged to have violated the ordinance, the person giving notice may request the payment of a voluntary administrative penalty for the violation directly to the City Treasurer within 14 days of the notice of the violation. In the sole discretion of the person giving the notice of the alleged violation, the time for payment may be extended an additional 14 days, whether or not requested by the person to whom the notice has been given. In addition to the administrative penalty, the person giving notice may request in the notice to the alleged violator to adopt a compliance plan to correct the situation resulting in the alleged violation and may provide that if the alleged violator corrects the situation resulting in the alleged violation within the time specified in the notice, that the payment of the administrative penalty will be waived.
- 13.05** At any time before the payment of the administrative penalty is due, the person who has been given notice of an alleged violation may request to appear before the City Council to contest the request for payment of the penalty. After a hearing before the Council, the Council may determine to reduce, withdraw or renew the request for payment. Because the payment of the administrative penalty is voluntary, there shall be no appeal from the decision of the Council.
- 13.06** At any time after the date the payment of the administrative penalty is due, if the administrative penalty remains unpaid or the situation creating the alleged violation remains uncorrected, the City, through its Attorney, may bring an action to enforce in accordance with state law and this ordinance. Likewise, the City, in its discretion, may bring charges for a violation in the first instance, rather than requesting the payment of an administrative penalty, even if a penalty for the particular violation has been established. If the administrative penalty is paid, or if any requested correction of the situation resulting in the violation is completed, no charges shall be initiated by the City for the alleged violation.

SECTION FOURTEEN. SEVERABILITY.

If any provision of this ordinance is found to be invalid for any reason by a court of competent jurisdiction, the validity of the remaining provisions shall not be affected.

SECTION FIFTEEN. REPEAL.

City of Hendrum Nuisance Ordinance No. 50 is hereby repealed.

SECTION SIXTEEN. EFFECTIVE DATE.

This ordinance becomes effective on the date of its publication, or upon the publication of a summary of the ordinance as provided by Minn. Stat., § 412.191, subd. 4, as it may be amended from time to time, which meets the requirements of Minn. Stat. § 331A.01, subd. 10, as it may be amended from time to time.

SECTION ONE: ADOPTION OF STATE LAW BY REFERENCE.

The provision of M.S. An establishment which serves prepackaged food that receives heat treatment and is served in the package or frozen pizza that is heated and served, shall not be considered to be a restaurant for purposes of this ordinance unless it meets the definitions of a “small establishment”, “medium establishment” or “large establishment”.

SECTION FOUR: KINDS OF LIQUOR LICENSES.

No person, except a wholesaler or manufacturer to the extent authorized under State license, shall directly or indirectly deal in, sell, distribute, or keep on sale in the City, any alcoholic beverage without a license to do so as provided in this ordinance.
