Stop by and visit with  
Santa!

### PUBLIC NOTICE

#### IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

##### Monitoring Requirements Not Met

---

Hendrum is required by Minnesota Rules, Chapter 4720 to test water sample(s) for Lead and Copper. This required sampling was not done for the monitoring period beginning June 1, 2021 and ending September 30, 2021.

*Because we did not monitor or failed to monitor completely during the compliance period, we did not know what levels of lead and copper were present in your drinking water, and we are unable to tell you whether your health was at risk during that time.*

##### What does this mean to me?

This is not an emergency. **You do not need to use an alternative source of water at this time.**

If you have any questions or comments about this violation, please contact Mark at [\(218\) 861-6743](tel:218-861-6743).

## Recycling

---

Recycling dumpsters are located on the north side of the school building and the corner of Quincy Street and Main Street West. The glass, plastic, tin cans and newspapers do not need to be separated.

## Snow Removal

---

As we start preparing for the winter season, the City of Hendrum would like to remind residents not to dump, plow, push, or blow snow from private driveways onto highways, streets, or a neighbor's property. Please do not park any motor vehicle on a public street or alley until after they have been plowed.

**No motorized vehicles are allowed on the levee or the retention ponds inside the levee**

---

**Snowmobile** operation is not allowed on any street, roadway, or public thoroughfare within the city limits except when going in a direct route from the city limits to your home or home to city limits. Please operate your snowmobile responsibly.
